

Dear Saint Nicholas Religious Education families,

The NE Team is looking forward to accompanying you and your family on their journey of faith and it is our hope that the up-coming year will be a time of deepening relationships with each other and Jesus. Over the upcoming months we will be exploring the Sacraments with a special emphasis on the Eucharist and the Holy Mass as well as Scripture, Prayer and Theology of the Body with our High School students.

We will continue to use the bridge to home method that we adopted two years ago, with one session on-site and following session home-based for our Elementary and Middle School families. The bridge to home for our High School families will take place on the 4th Wednesday of the month when parents attend the on-site session with their child. We will once again have Family Events periodically throughout the year for our Elementary and Middle School families.

Blessings,

The NE Team
